Paper under disposal

Rev: Mr. Sawday, of the Wesleyan Mission, Mysore, applies for the following concessions in connection with the Hospital for women and children, now under construction in Mysore City:-

(1) A building grant of one third the cost of the building, ₹34,000.

(2) A monthly Grant-in-aid of ₹400/- towards the maintenance of the hospital.

Office note 14-3-14

The Senior Surgeon who was consulted in the matter, considers that the building, when completed, would be not only an ornament to the City but most useful to its inhabitants. He is also of opinion that "to have such a building subserving such a purpose in Mysore City at a cost to Government of ₹34,000 down and ₹400 monthly, means practically a free gift to the City, or rather the whole District of Mysore".

The question as to what Government aid might be given, as fully considered in the Council and it was resolved to recommend (1) a grant equal

to one fourth of the value of the building and not exceeding ₹ 25,000; and (2) one fourth of the monthly cost of maintenance subject to a maximum of ₹ 200 per mensem, on conditions similar to those prescribed in the case of the St. Martha's Hospital at Bangalore, and specified in the Proceedings of the Council.

These recommendations may be sanctioned.

Sir,

I have the honour again to bring to your notice the needs of the Hospital for Women and Children which we are erecting in the City of Mysore. It is being built in that part of the City which is most densely crowded and which is most in need of Medical help. Plans of the Building have already been submitted to the Govt. and to H.H.The Maharajah who has expressed himself as being very delighted with them. I am confident that the Building will be a great ornament to the City and that the work carried on therein will be a great blessing to the many sufferers of the City. I have now the honour to ask that you will be pleased to encourage us by giving us,

1. A BUILDING GRANT.

The Buildings, as planned, will cost us at least Rs100,000. The Dewan has himself inspected them and has an idea of their extent, convenience and beauty. I most earnestly ask the Government to be kind enough to make us a Building Grant of one-third of the cost, that is, Rs34,000.

2. A MAINTENANCE GRANT.

The first English Lady Doctor is now ready to sail and I hope we shall be ready to commence work at the beginning of the year. We shall have to incur very heavy expense immediately the Hospital is opened and even before. From experience gained in a precisely similar Hospital at Vellore, we know that we shall have to face an ordinary monthly expenditure of at least Rs600. This will not include the stipend of the Lady Doctor or Doctors, or of the European Nurse whom we hope to get, so that we shall have to face a total monthly expenditure of upwards of Rs1000. I trust the Government will show its practical sympathy with this most beneficent work and allow us a monthly Grant-in-aid of Rs400, which, I believe, is the grant given by the Govt. of H.H.The Maharajah to a similar Institution in Bangalore.

I am deeply grateful to H.H.The Maharajah and to the

Dewan for their personal assurances of sympathy. As I am straining every effort to raise the money needed for the Buildings and for the Maintenance, It will be a great encouragement to me if the Government will consider the matter and communicate its decision at as early a date as may be possible and convenient.

Commending the Scheme to your most sympathetic support,

I have the honour to be, Sir,

Your most obedient Servant,

George W. Sawday
